SECTION 1: INTRODUCTION

On behalf of Ladenburg Thalmann & Co. Inc. ("LTCO" or the "Firm"), we would like to thank you for taking time to learn more about our firm, our people, and our services. While we hope that both the terms used and the subjects included in this brochure ("BD Firm Brochure" or "Brochure") are familiar to you, in some cases they may not be. To assist you in better understanding the topics discussed in this Brochure, a brief explanation of several terms that are used throughout may be of benefit.

LTCO is a broker-dealer and subsidiary of Advisor Group, Inc. What that means is that we are a company that is in the business of buying and selling securities – stocks, bonds, mutual funds, and certain other investment products – on behalf of our customers. Individuals who are associated with broker-dealers and serve as representatives for retail customers buying and selling investment products – the personnel whom many people call brokers or registered representatives – are referred to by LTCO as Financial Professionals ("Financial Professional(s)", "FP" or "FPs"), and that is how they are described in this Brochure. Knowing who we and our Financial Professionals are should make it easier for you to navigate this Brochure, but if you have questions, or would like clarification regarding anything discussed in this Brochure, please ask your FP to assist you.

Regulation Best Interest ("Reg BI") requires broker-dealers and their Financial Professionals to act in the best interest of a retail customer ("you"), and place your interests ahead of all others when making a recommendation of any securities transaction or investment strategy involving securities, including account recommendations and rollover/transfer of assets. Reg BI also requires that broker-dealers disclose the material facts relating to the scope of the terms of your relationship with your broker-dealer and FP.

The purpose of this Brochure is to foster your understanding of your relationship with LTCO and your FP, and to help you evaluate any recommendations you receive.

When your FP makes a recommendation to you regarding any securities transaction or investment strategy involving securities (including account recommendations and rollover/transfer of assets), your FP should be providing the recommendation in your best interests at that specific time, without placing your FP’s financial or other interest ahead of your interests.

This Brochure is designed to help you obtain the facts needed when deciding the type of account(s), securities or services to help you obtain your investment objectives.

SECTION 2: INVESTMENT PHILOSOPHY

The process by which LTCO and its Financial Professionals develop their investment recommendations to retail customers is of fundamental importance to your understanding of what services are being provided, and whether those services are appropriate to your needs and goals. LTCO’s philosophy is to provide its Financial Professionals with access to a diverse array of investments to support client risk profiles, including, but not limited to, mutual funds, alternative investments, and unit investment trusts ("UIT") (collectively “Packaged Product” or “Packaged Products”), stocks and bonds. Packaged Products have sponsors (a “Packaged Product Sponsor”) which distribute the Packaged Products and manage the Packaged Product’s underlying investments. We review our Packaged Product Sponsors to ensure the investments they offer are managed by experienced, cost conscious, and financially and organizationally strong companies. An important component of our investment philosophy involves performing due diligence on Packaged Product Sponsors. Our due diligence includes, but is not limited to, the following:

- Financial and organizational strength (years in the business, assets under management, depth of management, any recent or near future major organizational changes);
• Key personnel and their backgrounds, qualifications, experience, track records, tenure, and reliance on specific key employee(s);

• Market research performed in-house and the strength and experience of research staff;

• Investment methodology (for example, with respect to mutual fund sponsors, we review portfolio turnover rates, risk tolerance levels, models used/indicators tracked, how buy/sell decisions are made, as well as the performance of the investments net of fees); and,

• Compliance with securities laws as well as a review of litigation and/or criminal convictions involving the Packaged Product Sponsor, their principals and portfolio managers within the last 10 years.

Your FP will analyze the available investments and account types and provide you an account recommendation based on your investment profile including, but not limited to, your personal investment objectives and goals, time horizon, risk tolerance, financial situation, needs and personal circumstances.

If there are elements of your FP’s investment philosophy that are not addressed in this Brochure, your FP will provide you with information detailing your FP’s own investment approach.

SECTION 3: FINANCIAL PROFESSIONAL

Your FP is a registered representative of LTCO, a broker-dealer, and is registered through the Financial Industry Regulatory Authority (“FINRA”) to sell and service investment products. Your FP is licensed as either a Series 6 or Series 7 Financial Professional.

• Series 6 is a securities license entitling a registered representative of a broker-dealer to sell mutual funds, UITs, 529 savings plans, variable annuities and variable life insurance. For providing this service the registered representative receives compensation in the form of a commission. Holders of the Series 6 license are not permitted to sell corporate or municipal securities, alternative investment programs, life insurance and options.

• Series 7 is a securities license entitling a registered representative of a broker-dealer to sell all types of securities products and investments (i.e. stocks, Exchange Traded Funds (“ETF”), options, bonds and other individual fixed income investments, annuities, mutual funds). For providing this service, the registered representative receives compensation in the form of a commission. Holders of the Series 7 license are not permitted to sell commodities, futures and life insurance.

Since your FP is a registered representative of a broker-dealer, your FP must comply with Regulation Best Interest and will take into consideration all types of accounts that could be offered when making the recommendation of an account that is in your best interest. Account recommendations include recommendations of securities account types generally (e.g., to open an IRA or other brokerage account), as well as recommendations to roll over or transfer assets from one type of account to another (e.g., a workplace retirement plan account to an IRA). In making recommendations to you associated with the services described in this Brochure, your FP is acting in the capacity of a registered representative of a broker-dealer. If this capacity changes at any point during the course of a recommendation, it will be disclosed to you at that time.

In your FP’s capacity as a registered representative of a broker-dealer, your FP will not monitor your portfolio or investments on an ongoing basis. However, your FP may voluntarily, and without any agreement with you, review the holdings in your account for the purposes of determining whether to provide you with a recommendation. This voluntary review is not considered to be “account monitoring,” and does not create an implied agreement with you to monitor the account.

In addition, your FP could be registered as an investment adviser representative (“IAR”) of a registered investment adviser (“RIA”) firm. If your FP is registered as an IAR, the FP would also be able to provide advisory services as well as the products and services mentioned above. When a FP is acting in an advisory capacity, you will receive the RIA firm’s Form ADV brochure.

Lastly, your FP could be registered as an insurance agent. If your FP is registered as an insurance agent, the FP would be able to sell insurance products as well as the products and services mentioned above. Your FP will explain what products he/she is able to sell, and you can log onto FINRA’s BrokerCheck, to review your FP’s licenses and financial industry background as well.

Please also refer to LTCO’s Form CRS to learn more about the Firm.

SECTION 4: SERVICES

Your relationship begins with your FP working with you to identify your investment profile (investment goals and objectives, as well as risk tolerance). Your FP will then develop a recommendation or recommendations designed to complement your financial situation, needs and personal circumstances, and the recommendation will be in your best interest.

Depending on your needs and investment objectives, your FP will provide services through a brokerage relationship, investment advisory relationship or both. There are important differences between these relationships as it relates to types of services and accounts, such as the following:
Brokerage services are when your FP and LTCO (as a broker-dealer) facilitates the execution of investment transactions for a commission, through a brokerage account based on your instructions. Your FP will be licensed as a Series 6 or Series 7 financial professional. Additional services your FP offers are investment education, research, financial tools, and personalized guidance such as recommendations. These recommendations, which will be based on your investment goals, objectives, and risk tolerance, are focused on items such as whether to buy, sell or hold a security or securities, what type of an account to open (taxable, qualified), and if you should transfer/rollover assets from another account, such as a retirement plan account. Your FP will not be providing ongoing monitoring of your account(s) portfolio, so it is important for you to review your account(s) regularly and communicate with your FP whenever you have questions, or if your financial situation, needs or personal circumstances change.

Advisory services are when your FP and LTCO’s advisory affiliate, Ladenburg Thalmann Asset Management (“LTAM”) (as an SEC registered investment adviser and as a fiduciary) provides ongoing investment advice and monitoring service of your account(s) for a fee. This service may be on a discretionary basis, which means that your FP can place trades, rebalance your portfolio or make other investment decisions for your account without first discussing with you and obtaining your approval. Other services your FP can provide are financial planning, non-discretionary consultation, and advice on the selection of professional asset managers. To provide these advisory services, your FP is required to obtain a specific license (Series 65 or 66) or obtain an equivalent professional industry designation (depending on the state your FP is in) and be listed as an IAR under LTAM. You can ask your FP or check FINRA’s BrokerCheck to see if your FP is able to provide advisory services.

This Brochure is focused on describing a brokerage service relationship to you. However, when evaluating which type of relationship is best for you, consider the following:

<table>
<thead>
<tr>
<th>Brokerage vs Advisory Services</th>
<th>Advisory Services</th>
</tr>
</thead>
<tbody>
<tr>
<td>Broker-Dealer</td>
<td>Registered Investment Advisor</td>
</tr>
<tr>
<td>Registered Representative “Financial Professional”</td>
<td>Investment Advisory Representative “Advisor”</td>
</tr>
<tr>
<td>Less frequent, often initiated by client</td>
<td>As needed, usually initiated by Advisor</td>
</tr>
<tr>
<td>Commission</td>
<td>Fee</td>
</tr>
<tr>
<td>Pay when you transact</td>
<td>Payment Timing</td>
</tr>
<tr>
<td>Requires your approval for each transaction</td>
<td>Investment Discretion</td>
</tr>
<tr>
<td>Can make discretionary investment decisions for you based upon your prior guidance, goals and risk tolerance</td>
<td></td>
</tr>
</tbody>
</table>

Below are some questions you might want to think about and ask your FP:

- Do you want or need someone to manage your account(s)?
- Or do you want to make all your investment decisions and only receive advice when you ask for it?
- Do you want someone to monitor your account(s) and provide ongoing investment advice?
- Or do you just want someone there if you have a question about your account or an investment?
- Do you have an active investment strategy of wanting to buy/sell when any type of financial or economic situation or opportunity presents itself?
- Or do you have a passive investment strategy of buy-and-hold for a long period of time and not influenced by financial or economics swings?
- Do you mind paying an ongoing fee for your FP’s services?
- Or would you rather pay your FP for each transaction he/she helps you with?

In addition to the questions above, LTCO’s Form CRS contains several “Conversation Starters” that you can use as discussion points with your FP in determining what services are right for you. It is our goal for you to be as informed as possible regarding your investment options, and both LTCO and your FP are available to explain our services in greater detail should you need any further information.
SECTION 5: PLATFORM / PROGRAMS

LTCO offers a number of brokerage account platforms and services, with the following key features and characteristics:

National Financial Services (NFS)

NFS acts as custodian on behalf of LTCO for your brokerage account(s) (qualified and non-qualified). If you open account(s) at NFS, you can deposit funds and buy or sell investments through LTCO.

- **Accounts** – LTCO offers different types of accounts based on the owner(s) of the account and if the account receives special tax treatment (Qualified accounts) or not (Non-Qualified or Taxable accounts). There are differing benefits and restrictions based on the account types selected, owners and beneficiaries. Your FP will discuss these with you based on your individual circumstance and needs.

- **Fees** – Fees are dependent on the custodian your account is with, as well as the type of program, account, investments and service relationship you select. The basic fees that you will be charged include, but are not limited to: transaction fees, ticket charges, annual check-writing fee, inactive account fees, account termination fees, account transfer fees, margin/option/reorganization fees, loan fee, investment expenses, FP’s commission or FP’s advisory fee, and program fee. To get details about the fees, go to each program outlined below.

- **Programs** – Different programs are offered through NFS and they vary by the types of accounts, investments and services offered as follows:
  - **Retail Program**: The Retail Program offers you an expansive array of investment options from stocks, exchange-traded products, bonds, UITs, Notes, CDs and mutual funds. You will have access to trade on margin and do options trading. You can set up individual, joint, non-qualified and qualified accounts. To invest through the Retail Program, you will enter into a client agreement with your FP and establish a retail brokerage account with NFS as custodian. The fees and restrictions are outlined below.
    - **Fees**:
      - Annual maintenance/custodial fee, account termination fee, account minimum fee, account inactivity fee, transaction fees, paper confirm/statement fee, contribution/deposit fee, year-end processing fee.
      - There are additional fees related to optional account features and services, including, but not limited to: having a checking account option, Fed Fund wire, delivery of overnight check, insufficient funds, margin account rates, option transaction fee, etc. You can view the dollar amount of these fees by going to [NFS Retail Brokerage Fees](#).
    - **Restrictions**:
      - Your FP cannot recommend a bond that is below investment grade.
      - Your FP cannot recommend leveraged-return mutual funds or exchange-traded products to you.

SECTION 6: RISKS

You should carefully consider your risk tolerance, time horizon, and financial objectives before making investment decisions. By investing, you are assuming the possibility of losing money or losing purchasing power (when your money does not grow as fast as the cost of living). Risk can be classified into many different categories, and by knowing the various risk categories you can better manage your own expectations and potentially avoid or reduce certain kinds of risk.

LTCO believes that any investment discussion should include the individual and market risks that you ought to know in order to make informed decisions about your money. Our goal is to supply you with information so that you can make an educated decision regarding your investments. Before you choose to invest with us, we suggest you consider the following steps put forward by the SEC:

- **Draw a personal financial roadmap.** Before you make any investing decision, sit down and take an honest look at your entire financial situation.

- **Evaluate your comfort zone in taking on risk.** All investments involve some degree of risk. If you intend to purchase securities - such as stocks, bonds, or mutual funds - it’s important that you understand before you invest that you could lose some or all your money. Unlike deposits at FDIC-insured banks and NCUA-insured credit unions, the money you invest in securities typically is not federally insured. You could lose your principal, which is the amount you’ve invested. That’s true even if you purchase your investments through a bank.

  The reward for taking on risk is the potential for a greater investment return. If you have a financial goal with a long-time horizon,
you are likely to make more money by carefully investing in asset categories with greater risk, like stocks or bonds, rather than restricting your investments to assets with less risk, like cash equivalents. On the other hand, investing solely in cash investments may be appropriate for short-term financial goals. The principal concern for individuals investing in cash equivalents is inflation risk, which is the risk that inflation will outpace and erode returns over time.

- **Consider an appropriate mix of investments.** By including asset categories with investment returns that move up and down under different market conditions within a portfolio, an investor can help protect against significant losses. Market conditions that cause one asset category to do well may cause another asset category to have average or poor returns. By investing in more than one asset category, you may reduce the risk that you'll lose money and your portfolio's overall investment returns might be more consistent.

In addition, asset allocation is important because it has major impact on whether you will meet your financial goal(s). If you don’t include enough risk in your portfolio, your investments may not earn a large enough return to meet your goal(s). For example, if you are saving for a long-term goal, such as retirement or college, most financial experts agree that you will likely need to include at least some stock or stock mutual funds in your portfolio. Please note that diversification does not assure a gain nor does it protect against a loss of your principal.

- **Be careful if investing heavily in shares of employer’s stock or any individual stock.** One of the most important ways to lessen the risks of investing is to diversify your investments. It's common sense: don't put all your eggs in one basket. By picking the right group of investments within an asset category, you may be able to limit your losses and reduce the fluctuations of investment returns without sacrificing too much potential gain.

- **Consider dollar-cost averaging.** Through the investment strategy known as “dollar-cost averaging,” you can protect yourself from the risk of investing all your money at the wrong time by following a consistent pattern of adding new money to your investment over a long period of time. By making regular investments with the same amount of money each time, you will buy more of an investment when its price is low and less of the investment when its price is high. Individuals that typically make a lump-sum contribution to an individual retirement account either at the end of the calendar year or in early April may want to consider “dollar-cost averaging” as an investment strategy, especially in a volatile market.

- **Consider rebalancing your portfolio occasionally.** “Rebalancing” means bringing your portfolio back to your original asset allocation mix. By rebalancing, you’ll ensure that your portfolio does not overemphasize one or more asset categories, and you’ll return your portfolio to a comfortable level of risk.

If you would like additional information, a more in-depth discussion of these and other risk considerations when making an investment decision can be found on the [SEC’s Information for Investors website](https://www.sec.gov).  

1. **General Investment Risks**

In addition to the personal risk considerations discussed above, LTCO believes it is important for you to understand the risks associated with each recommendation and investment type available. The following is a summary of some of the general risks associated with investing. Please note that this list is not exhaustive, and is provided as an indication of some of the factors that can impact the value of your investments:

**Business risk**
This is the risk that the strength of the company you are buying a piece of ownership in (a stock, for example) or are loaning money to (a bond, for example) affects your potential returns. Your returns from the stock purchase or bond purchase are influenced by factors like the company going out of business, or going into bankruptcy, or having a viable and strong revenue stream from the products or services it sells that is not over-shadowed by expenses. If a company goes bankrupt and its assets are liquidated, common stockholders are the last in line to share in the proceeds.

**Call risk**
This is the risk that your bond or other fixed-income investment will be called or purchased back from you when conditions are favorable to the product issuer and unfavorable to you.

**Concentration risk**
This is the risk of loss because your money is concentrated in one investment or type of investment. When you diversify your investments, you spread the risk over different types of investments, industries and geographic locations.

**Credit risk**
This is the risk that the government entity or company that issued the investment will run into financial difficulties and won't be able to pay the interest or repay the principal at maturity. Credit risk applies to debt investments such as bonds. You can evaluate credit risk by looking at the credit rating of the bond or the issuer. For example, long-term U.S. government bonds currently have a credit rating of AAA, which indicates the lowest possible credit risk.
Currency risk
This is the risk of losing money because of a movement in the exchange rate. For example, if the U.S. dollar becomes less valuable relative to the Canadian dollar, your U.S. stocks will be worth less in Canadian dollars. This applies when you own foreign investments.

Default risk
This is the risk that a bond or other fixed-income investment issuer is unable to pay the contractual interest or principal on the product in a timely manner or at all.

Financial risk
This is the risk that the companies you invest in will perform poorly, which affect the price of your investment. You can’t eliminate financial risk; however, you may be able to minimize the impact through diversification.

Foreign Investment risk
This is the risk of loss when investing in foreign countries. When you buy foreign investments, such as shares of companies in emerging markets, you face risks that do not exist in the United States (for example, the risk of nationalization).

Horizon risk
This is the risk that your investment time horizon may be shortened due to a foreseen or unforeseen event, thus requiring you to sell the investment(s) that you were expecting to hold for a longer term. If you must sell at a time when the markets are down, you may lose money.

Inflation risk
Inflation risk, also called purchasing power risk, is the chance that the cash generated by an investment today won’t be worth as much in the future. Changes in purchasing power due to inflation may cause inflation risk. There are investments that help minimize inflation risk.

Interest Rate risk
This is a risk that can affect the value of bonds or other fixed-income investments you may purchase. When interest rates rise, the market value of bonds fall. When interest rates fall, the market value of bonds rise.

Liquidity risk
Liquidity risk arises when an investment can’t be bought or sold quickly enough to prevent or minimize a loss. You may be able to minimize this risk by diversifying. A good option is index investing where risk is diversified over the various stocks held in a portfolio tracking a particular index. You can’t invest directly in an index.

Manager risk
This is the risk that an actively managed mutual fund, exchange traded fund, or closed-end fund’s manager will fail to execute the fund’s stated investment strategy.

Market risk
This is the risk that the stock market will decline, decreasing the value of the securities owned. Stock market bubbles and crashes are good examples of heightened market risk. You can’t eliminate market risk; however, you may be able to minimize the impact through diversification.

Political and Governmental risk
This is the risk that the value of your investment will be affected by the introduction of new laws or regulations.

Reinvestment risk
This is the risk of loss from reinvesting principal or income at a lower interest rate.

2. Specific Investment Risks
LTCO and your FP offer various types of investments. The different types of investments we offer and their potential risks are described below.

- **Stock:** A stock, also known as “shares” or “equity,” gives the stock owner a proportionate ownership position in the company that issues the stock. It entitles the stockholder (you) to that proportion of the company’s assets and earnings.
  
    - **Major risks:** Business, Concentration, Currency, Financial, Foreign Investment, Inflation, Market, Political and Governmental
• **Bonds:** This is a fixed income investment that represents a loan by you (the investor) to a borrower (typically a company, government/municipality, or governmental agency).
  — Major risks: Business, Call, Credit, Default, Financial, Inflation, Interest Rate, Liquidity, Reinvestment

• **Notes (Including Structured Products):** This is a fixed-income investment where you (the investor) purchase a secured debt (or other assets) and become the lender, after which you receive payments (principal and interest) over a specific period (usually a shorter time period than a bond) from the borrower.
  — Types:
    — **Principal Protected Note (PPN):** This is a fixed-income security that guarantees a minimum return equal to the investor’s initial investment (the principal amount), regardless of the performance of the underlying assets.
    — **Non-Principal Protected Note (NPPN):** This is a fixed-income security that does not guarantee a minimum return equal to the investor’s initial investment (the principal amount), because it allows clients to customize the date of return to suit their investment needs. NPPNs can be linked to a variety of underlying investments including indices, single stocks, portfolios of shares, industry sectors, commodities and currencies.
  — Major risks: Call, Credit, Default, Inflation, Interest Rate, Liquidity, Reinvestment

• **Certificate of Deposit (CD):** This is a fixed-income investment where you (the investor) deposit a sum of money for a specified period and you will receive either a specific rate of interest or a rate of interest linked to an index with a capped gain. Certain CDs can be FDIC insured.
  — Major risks: Call, Default, Inflation, Interest Rate, Reinvestment

• **Unit Investment Trust (UIT):** This is where a U.S. financial company buys or holds a group of securities, such as stocks or bonds, and makes them available to investors as redeemable units. UITs have a stated expiration date based on what investments are held in their portfolio; when the portfolio terminates, investors get their share of the UIT’s net assets.
  — Major risks: Business, Credit, Interest Rate, Liquidity, Market, Reinvestment

• **Exchange Traded Fund (ETF) and Exchange Traded Note (ETN):** An ETF is a basket of securities that trades on an exchange (open stock market), just like a stock and it seeks to track an underlying index. ETF share prices fluctuate throughout the trading day as the ETF is bought and sold; this is different from mutual funds that only trade once a day after the market closes. An ETN is a debt instrument that mimics the performance of a basket of securities but does not actually hold them for the benefit of the client. An ETN is an obligation of the issuing company, often an investment bank.
  — Major risks: Concentration, Currency, Foreign Investment, Inflation, Liquidity, Manager, Market, (for ETN: Credit risk)

• **Mutual Fund:** This is a type of investment vehicle consisting of a portfolio of stocks, bonds, or other securities. Mutual funds give small or individual investors easier access to diversified, professionally managed portfolios. Mutual funds are divided into several kinds of categories, representing the kinds of securities they invest in, their investment objectives, and the type of returns they seek. Mutual funds charge annual fees (called expense ratios) and, in many cases, commissions, which can affect their overall returns. Most mutual funds offer you different types of shares, known as “classes.” Each class invests in the same portfolio of securities and has the same investment objectives and policies. But each class has different shareholder services and/or distribution arrangements with different fees and expenses. With an open-end fund, if you want to buy shares, the management company will sell them to you. They will take your money, add it to the portfolio, and create more shares. You always transact shares of an open-end fund with the issuing fund company, never on the secondary market.
  — Major risks: Concentration, Currency, Foreign Investment, Inflation, Manager, Market

• **Closed-end Fund:** This is a type of investment vehicle where, at fund inception, the investment company raises a set amount of money and issues a specific number of shares. No new shares are created after that point. Investors can buy the fund shares only on the secondary market, from someone else who is selling shares. Like stocks, closed-end fund shares can be traded at any time of the day when the market is open. The shares reflect market values rather than the net asset value of the fund itself.
  — Major risks: Concentration, Currency, Foreign Investment, Inflation, Manager, Market

• **Hedge Fund:** This is an alternative investment that is operated by a manager who invests the money into different assets to achieve the fund’s goals. Hedge funds got their name from investors holding both long and short stocks in various funds, to make sure they generated a gain despite market fluctuations (called “hedging”).
  — Major risks: Business, Concentration, Currency, Interest Rates, Liquidity, Market

• **Exchange Fund:** This is an alternative investment which is also known as a swap fund. It is an arrangement between a product sponsor and concentrated shareholders of different companies that pools shares and allows you to exchange your large holding of a single stock for units in the entire pool’s portfolio.
  — Major risks: Business, Concentration, Liquidity, Market
LTCO – like every financial services company – has conflicts of interest. For example, both LTCO and its Financial Professionals are compensated for the products we sell, and this presents an inherent conflict of interest. As you work with your FP to determine the right investments and services to seek your investment goals, it is important for you to (1) understand how LTCO and your FP are compensated, and (2) have all the material facts related to the scope and terms of LTCO’s and your FP’s relationship with you. The information contained in this section describes conflicts of interest associated with compensation received by LTCO and its Financial Professionals for brokerage services, in addition to some of our other related conflicts of interest, in order to provide you with the material facts related to these conflicts.

LTCO and your FP make money because we are either compensated directly by you, or indirectly from the investments purchased by you. LTCO offers a range of investments and services to our clients, and when you purchase a product for which LTCO is acting as a broker-dealer, you will usually pay a sales commission, which may be (1) paid at the time of purchase, (2) built into the expense of the product purchased, or (3) charged to you when you sell the investment. If we are paid an upfront commission, it means that the greater the dollar value of your transactions, the more we are paid.

As it relates to Packaged Products, LTCO is paid by the Packaged Product Sponsor or its affiliates, with a portion of that payment going to your FP based upon an established compensation formula that is uniform regarding similar products. Sales charges,
expenses and commissions paid to LTCO differ with the type of investment and may depend on the amount of money you invest. LTCO may also receive ongoing or continuing compensation, trailing commissions or trails that are intended to compensate LTCO for marketing and services provided to your FP and you. As it relates to stocks and bonds, LTCO is paid a sales commission by you at the time of the purchase (or sale) based on the amount of the purchase (and maturity time for bonds). Your FP receives a portion of the commission.

Your FP and LTCO obtain compensation from investment products you purchase. Please see the **FP Compensation Disclosure** to view the maximum commission available for each product type.

- **LTCO Conflicts** (Your FP does not receive any portion of the Revenue Sharing, Custodian & Cash Sweep Program compensation listed below):

  - **Revenue Sharing Payments**: In addition to sales commissions or asset-based fees, LTCO receives compensation (“revenue sharing payments”) from Packaged Product investment sponsors or their affiliates (“Strategic Partner” or “Strategic Partners”). LTCO can be paid up to 30 basis points (0.30%) of your total purchase amount of a Strategic Partners product. So, for example, in the case of a mutual fund, if you invest $10,000 in a mutual fund, the Firm could be paid up to $30. Additionally, some Strategic Partners may make additional monthly or quarterly payments of up to 18 basis points (0.18%) per year, based on the assets you hold in the mutual fund product over a period of time. For example, on a holding of $10,000, the Firm could receive up to $18 per year. Alternatively, the Firm may receive compensation from a mutual fund sponsor as: (1) a flat fee regardless of the amount of new sales or assets held in client accounts; or (2) the greater of such flat fee or amount based on assets and/or new sales as referenced above and any ticket charge payments referenced below. These payments are designed to compensate the Firm for ongoing marketing and administration and education of its employees and representatives. You do not make these payments. They are paid by the product sponsors and/or their affiliates out of the assets or earnings of the fund sponsors or their affiliates. There is also additional volume compensation (based on sales) provided to the Firm, by specific investment companies that offer UITs, and it is described in each UIT’s prospectus.

  - **Custodian Compensation**: LTCO receives compensation from NFS to offset its general operating expenses. Compensation received consists of a fixed-dollar amount per account and percentage of net new assets and total assets held in the brokerage accounts. Certain custodian fees may apply to your brokerage accounts. In some instances, the Firm pays a portion of the fee charged. In some limited instances, we apply a markup to these fees. Examples of instances where a markup fee could be applied include federal funds wire fees, and other transaction costs assessed by the custodian.

  - **Cash Sweep Program Compensation**: If you elect to be part of LTCO’s Sweep Program within the Retail Program, LTCO receives a fee from one or more banks participating in the program (a “Program Bank”) equal to a percentage of your deposit balance in your account or a flat fee. For detailed information about the Sweep Program and the fees received, please go to the **Cash Sweep Program Disclosures**.

For more detail information about any of the LTCO compensation conflicts noted above, please go to the **Revenue Sharing Disclosure**.

- **Business Affiliation Conflicts** (This conflict arises from compensation received by Securities America for directing clients to products or services of companies that Securities America has an affiliation with).

  - **Premier Trust**: Your FP can recommend Premier Trust, a Nevada chartered trust company, to provide trust, estate planning and administrative services. The Firm receives compensation for recommending clients to Premier Trust, providing the Firm with an incentive to recommend it rather than others providing similar services. When making any recommendation, FPs first consider whether Premier Trust can adequately service client needs and whether any other efficiencies or benefits will result to the client. Clients are not obligated to follow our recommendations or use Premier Trust’s services. When used, Premier Trust provides full disclosure with respect to its trust and administrative services and related costs.

  - **Highland Capital Brokerage (Highland)**: Highland is an independent insurance brokerage firm that delivers life insurance, fixed and equity indexed annuities, long-term care solutions and variable insurance wholesaling support to investment and insurance providers. The Firm receives compensation for recommending FPs to use Highland’s services, providing the Firm with an incentive to recommend FPs to use Highland rather than others providing similar services. Some employees of Highland may also be registered with the Firm.

  - **Ladenburg Thalmann & Co. Inc. (LTCO)**: LTCO is a registered broker/dealer. As such, it can act as a dealer relative to certain securities and execute transactions in its capacity as a principal for Securities America clients. Fixed income securities are traded primarily in “dealer” markets, meaning securities are purchased directly from or sold to a financial institution acting as “dealer” or “principal.” Dealers executing principal trades typically include a “mark-up,” “mark-down,” and/or “spread” in the net price at which transactions are executed. This compensation is in addition to other compensation clients pay to Securities America and its affiliates. To address this conflict of interest, clients are given disclosures about principal transactions with LTCO and have the opportunity (to the extent required by applicable law) to reject the transaction before its completion. In addition, clients are generally given transaction specific disclosure prior to their decision to invest in such securities.

If your FP uses LTCO Fixed Income Solutions (“FIS”), your FP has incentives to recommend certain Structured Products in the
Because of our affiliation with LTCO, we have incentives to recommend investments in these initial and secondary offerings —

- LTCO FIS may earn compensation on your riskless principal trades. The amount of compensation, in addition to any price mark-up or mark-down, is disclosed on your Corporate and Municipal securities bond trade confirmations. The relationship between your FP and LTCO FIS will be disclosed prior to the execution of your trade. Your FP is required to disclose this conflict and receive your consent prior to entering your trade.

Your Financial Professional can also recommend clients invest in securities issued in an initial public (“new issue”) and secondary offering for which LTCO acts as a manager, an underwriter and/or a member of the selling syndicate. Securities America can also act as a member of the selling syndicate. We have a conflict of interest when recommending these securities because:

- LTCO receives all or a portion of the gross spread (the difference between the price paid by the client for the security and the price for which LTCO purchases the security) in connection with such sales. This gross spread will vary between different offerings. If Securities America also acts as a member of the selling syndicate, they receive a portion of the gross spread. Your Financial Professional generally receives a portion of this compensation.

- LTCO has a substantial financial and reputational interest in assuring the offerings are successful by having a large number of the securities purchased. In connection with certain offerings, LTCO has an obligation to purchase and resell a certain number of securities.

Because of our affiliation with LTCO, we have incentives to recommend investments in these initial and secondary offerings for the above reasons rather than based on client needs. To address these conflicts, we have policies and procedures in place to make certain securities in initial public offerings are recommended only to clients for whom they are in the client’s best interest based on client investment objectives and holdings. In addition, clients are generally given transaction specific disclosure prior to their decision to invest in such securities. If securities acquired in initial public and secondary offerings become oversubscribed, we have policies and procedures in place addressing the allocation process under these circumstances.

In addition, yourFP can refer you to LTCO for investment banking services and receive a finder’s fee if he/she is also a registered representative. Clients are not obligated to use any LTCO services recommended.

- Ladenburg Thalmann Asset Management, Inc. (LTAM): LTAM is an SEC registered investment advisor specializing in investment management, market analysis, due diligence, fund selection, asset allocation and diversification strategies. LTAM sponsored programs and their characteristics are more fully described in its disclosure brochures, which are available to any client or prospective client upon request.

LTAM offers the Total Portfolio Series funds (Collective Investment Trusts) established for retirement plans as well as the Ladenburg Funds (i.e., Ladenburg Income Fund, Ladenburg Income & Growth Fund, Ladenburg Growth & Income Fund, Ladenburg Growth and Ladenburg Aggressive Growth), each of which is an open-end fund of funds as well as the Alternative Strategies Fund) an interval fund. Our FPs can recommend clients invest in these funds as well as other managed portfolios. Transactions for these funds and portfolios are generally executed through LTAM, which receives commissions when executing trades on behalf of the funds. Therefore, there is a conflict of interest if clients elect to invest in these products since LTAM, LTCO and Securities America generally receive more compensation than if clients purchase other investments.

- FP Conflicts (This conflict arises from compensation received by your FP. These forms of compensation are in addition to the commissions received by your FP).

- Rollovers/Transfers: You can rollover/transfer assets from a qualified retirement accounts, such as a 401(k) plan or IRA, to another IRA. There may be an increase in the ongoing cost of the assets in the new account and your FP’s compensation could increase as a result. There may also be additional products or services available to you. The Firm has established a special process and requirements to assist you and your FP in evaluating a rollover and whether it is in your best interest.

- The Equity Ownership Plan: Certain Financial Professionals who are accredited investors have invested in or been offered the opportunity to invest in AG Artemis Holdings, L.P, the parent entity of Securities America.

- Other Cash and Non-Cash Compensation: In addition to reimbursement of training and educational meeting costs, Securities America and our Financial Professionals may receive promotional items, meals or entertainment or other non-cash compensation from representatives of mutual fund companies, insurance companies, and alternative investment products, as permitted by regulatory rules. Additionally, sales of any mutual funds, variable insurance products and alternative investment products, whether or not they are those of Strategic Partners, may qualify our Financial Professionals for additional business support and for attendance at seminars, conferences and entertainment events. Further, some of Securities America management and certain other employees of Securities America may receive a portion of their employment compensation based on sales of products of Strategic Partners and/or certain sponsors of other products. From time to time, non-Strategic Partners may attend the Firm’s sponsored meetings for a fee.
LTCO maintains policies and procedures to ensure recommendations are in your best interest. The Firm also maintains a supervisory structure to monitor the activities of our Financial Professionals to reduce potential conflicts of interest. You are encouraged to ask the Firm or your FP about any conflict presented. Additionally, for more information about our conflicts, please go to the LTCO Disclosures page.

Please note that not all the conflicts described in this Brochure apply to a particular LTCO Financial Professional or your FP’s services. Also note that the products we sell, and the types and amounts of compensation we receive, change over time. You should ask your FP any questions you have about compensation or conflicts of interest. Understanding the conflicts of interest that LTCO and your FP have, and how those conflicts of interest may affect the basis for a particular recommendation, will help you evaluate the potential incentives either we or your FP have in making a recommendation.

SECTION 8: CONCLUSION

We hope this Brochure has helped enhance your understanding of LTCO and your FP as it relates to the material facts relating to the scope and terms of your current/future relationship with us. If you have any questions now or in the future about any of the topics discussed herein, do not hesitate to review the Brochure again or reach out to us or your FP.
