## 2. Information Related To Compensation

- a) **Investment-Related Information in Prospectus or Advisory Agreement:** the following information for each investment alternative may be found in the current prospectus or other disclosure materials of the designated investment alternative, copies of which have been provided to you: i) a description of any compensation that will be charged directly against the amount invested in connection with the management, acquisition, sale, transfer of, or withdrawal from the investment contract, product, or entity (such as, sales loads, sales charges, deferred sales charges, redemption fees, surrender charges, exchange fees, account fees, and purchase fees); (ii) a description of the annual operating expenses (the annual expense ratio) if the return is not fixed; and (iii) description of any ongoing expenses in addition to annual operating expenses (such as, wrap fees, mortality and expense fees). Osaic Institutions makes no representations as to the completeness or accuracy of such disclosure materials. You should refer to the prospectus or other disclosure materials for the particular designated investment alternative.
- b) If your Representative/IAR provides services on the premises of a financial institution such as a bank or credit union, Osaic Institutions may pay an amount equal to a portion of the brokerage compensation Osaic Institutions receives (20% to 100% depending on the investment product) to the financial institution, which may pay part of that amount to your Representative/IAR. Osaic Institutions pays this compensation to the financial institution pursuant to a financial services agreement between Osaic Institutions and the financial institution, which allows financial institution employees to be registered with Osaic Institutions for the purposes of offering investment and insurance products, and to compensate the financial institution for the use of its facilities. Some financial institution representatives do not share in any commissions or fees.

If your Representative/IAR does not provide financial services on the premises of a financial institution, commissions, fees and trail payments described above with respect to the Plan are paid to Osaic Institutions, and Osaic Institutions shares a portion with your Representative/IAR based on an agreement between Osaic Institutions and your Representative/IAR. Your Representative/IAR is a registered representative of Osaic Institutions and provides investment services on behalf of Osaic Institutions. Osaic Institutions may share with your Representative 20% to 100% (depending on the type of investment product) of the commissions, fees and or ongoing trail payments Osaic Institutions receives in connection with the Plan's investments. Your independent Osaic Institutions Representative/IAR is an independent contractor and not an employee of Osaic Institutions.

Osaic Institutions may pay other compensation to your Representative/IAR, such as bonuses, awards or other items of value offered. In particular, Osaic Institutions may pay its representatives/IARs bonuses in different ways, for example, by payments based on production, reimbursement of fees that registered representatives pay to Osaic Institutions for items such as administrative services, and other items of value such as free or reduced-cost marketing materials, or attendance at Osaic Institutions conferences and events. Such compensation may result in conflicts of interest.

- c) **Termination of Services:** If the brokerage services under this Agreement are terminated, Osaic Institutions may continue to receive trail payments and sponsorship program compensation as described above from the investment provider or issuer until the Plan arranges a change to the broker-dealer shown on the Plan's account.
- d) **Conflicts of Interest:** You should understand that Osaic Institutions and your Representative/IAR may

receive more or less compensation depending on the investments selected by the Plan. Therefore, Osaic Institutions and your Representative/IAR may have a financial incentive to recommend a certain product over another product.

- e) Osaic Institutions receives compensation from the distributors of certain mutual funds and annuities that are available to Osaic Institutions customers. These payments are made in connection with programs that support Osaic Institutions' marketing and sales force education and training efforts, such as our annual national sales and education conference and other conferences (referred to here as "Sponsorship Programs") and offset a portion of Osaic Institutions' costs of such training and conferences. The payments made under the Sponsorship Programs are calculated based upon the sales of such products (up to 0.50% annually), a flat annual fee, or a combination of both.
- f) Sponsorship Program Arrangements: In addition to the compensation described in (a) and (e) above, Osaic Institutions receives additional compensation from some variable annuity, fixed annuity and life insurance issuers and providers of structured and alternative products. The 12b-1 fees and the payer of such fees are set out in the prospectus of the money market fund provided to the Plan in connection with the investment.

**Trail Payments.** For certain of our services, we are paid by third parties rather than being paid directly by the Plan. For example, a mutual fund underwriter or other product sponsor may pay Osaic Institutions an ongoing amount that is based on the value of the Plan's investment in the product. These ongoing payments are often called distribution and/or service fees, 12b-1 fees or trails. They are paid for Osaic Institutions' distribution-related services and/or shareholder servicing, and are made pursuant to Osaic Institutions' agreement with the payer. For mutual funds, the ongoing payment depends on the class of shares but will not exceed the annual rate of 1.00%. ## 2. Qualified plan investing through a direct business product sponsor (commission based)

### Investment Advice

Osaic Institutions acts as the broker-dealer of record on the account. Osaic Institutions is a broker-dealer registered with the Securities and Exchange Commission. Osaic Institutions is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA") and the Securities Investors Protection Corporation ("SIPC").

Osaic Institutions does not provide investment advice to the Plan and is not acting as an investment advisor registered under the Investment Advisers Act of 1940 or under state investment advisor laws. To the extent that Osaic Institutions and/or your Representative provides "investment advice" to the Plan under section 3(21) of ERISA in connection with the Account, Osaic Institutions and your Representative will provide services as a "fiduciary" under ERISA and section 4975 of the Internal Revenue Code. This acknowledgment of status under ERISA or the Code is not intended to create or expand any "fiduciary" relationship, capacity or obligations between you (or your Account) and Osaic Institutions and your Representative (including their affiliates) under other federal, state or local laws.

### Compensation

Below is information about the compensation Osaic Institutions and your Representative may receive with respect to the investment services to the Plan and certain conflicts of interest that may be raised in connection with this compensation. The compensation Osaic Institutions and your Representative receive may vary depending on the security or investment product selected by the Plan.

**Commissions.** Osaic Institutions may receive compensation in the form of commissions for transactions. This compensation, sometimes called a sales load or sales charge, is typically paid up front, charged directly against the Plan's investment and based on the amount of assets invested. For mutual funds, the maximum commission or sales charge is 8.5% but is typically 5.75%. For annuities, the maximum commission paid is typically 5.5%. The applicable sales charge for each transaction is described in the prospectus or other offering document of the investment product provided to the Plan in connection with the investment.

Investment and insurance products and services are offered through Osaic Institutions, Inc., Member FINRA/SIPC. Osaic Institutions and the bank/credit union are not affiliated. Products and services made available through Osaic Institutions are not insured by the FDIC/NCUA or any other agency of the United States and are not deposits or obligations of nor guaranteed or insured by any bank, bank affiliate, credit union, or credit union affiliate. These products are subject to investment risk, including the possible loss of value.

You should keep in mind that a front-end commission may reduce the amount available to invest. For example, if the Plan writes a check to invest \$10,000 for the purchase of mutual fund shares, and the fund has a 5% front-end sales charge, the total amount of the sales charge will be \$500. The \$500 sales load is first deducted and paid to Osaic Institutions as the broker, and assuming no other front-end fees, the remaining \$9,500 is used to purchase fund shares for the Plan.

**Trail Payments.** For certain of our services, we are paid by third parties rather than or in addition to being paid directly against the Plan's investment. For example, a mutual fund underwriter, variable annuity issuer, or insurance contract issuer may pay Osaic Institutions an ongoing amount that is based on the value of the Plan's investment in the product. These payments are often called distribution and/or service fees, 12b-1 fees or trails. They are paid for Osaic Institutions' distribution-related services and/or shareholder servicing, and are made pursuant to Osaic Institutions' agreement with the payer. Such shareholder servicing that your Representative may provide, if requested by the Plan, include: (i) conducting participant enrollment meetings; (ii) providing general education to participants regarding the terms and operation of the Plan and the investment options under the Plan; and (iii) providing general education to the Plan sponsor or its investment committee regarding the investment options under the Plans. The trail compensation is payable under the agreement with the payer whether or not Osaic Institutions or your Representative provides any such particular services to the Plan or its participants.

In the case of mutual funds, Osaic Institutions and your Representative may be paid Rule 12b-1 fees, which are ongoing fees paid out of fund assets that are usually between 0.25% and 1% of assets annually. For variable annuities, the maximum trailing commission paid may be up to 1.5% on an annual basis. For some products, the trail compensation may be higher in the first year. For example, if the Plan purchases a group annuity contract, there may be a finders' fee during the first year (typically up to 1.00%), and an equalized trail (typically of up to 0.50% annually) after the 13th month. You should refer to the Account Application, as well as the prospectus or other offering documents for the security or contract, for more detailed information about the amount of commissions and trail or 12b-1 compensation that Osaic Institutions and your Representative receive with respect to the Plan. This compensation is typically shared between Osaic Institutions and your Representative.

Under its agreements with some issuers of fixed annuities that are available to Osaic Institutions' customers, Osaic Institutions receives compensation that includes commissions and trailing commissions from such issuers. This compensation also may include payments for administrative services that Osaic Institutions provides and payments made in connection with Osaic Institutions' marketing and sales-force education and training efforts, including our annual national sales and education conference and other conferences. The payments made by fixed annuity issuers include payments that are based on sales, on a flat annual payment or a combination of both. These payments do not affect the Plan's premiums, and your Representative does not receive any portion of these payments.

Under its agreement with the various issuers of life insurance contracts (universal, variable universal, whole life, and term) that are available to brokerage customers, Osaic Institutions receives compensation that includes commissions and trailing commissions. This compensation also may include payments for administrative services that Osaic Institutions provides and payments made in connection with Osaic Institutions' marketing and sales-force education and training efforts, including our annual national sales and education conference and other conferences. Osaic Institutions receives commissions in the range of 0.25% to 15% of first-year commissionable premiums. Osaic Institutions may also receive a trail payment in the range of 0.25% to 10% of subsequent premiums, if any. The amount of commission varies depending on the issuer, coverage, and the premium amount. These payments do not affect the Plan's premiums, and your Representative/IAR does not receive any portion of these payments.

All decisions regarding the assets of the Plan, the interpretation of its provisions, compliance with applicable laws and operation of the Plan are the sole responsibility of you and the Plan. All investment decisions with respect to the Plan should be based on your independent judgment, and any information, research and/or recommendations provided by Osaic Institutions or your IAR should not be the primary basis for the Plan's investment decisions.

**Limitation on IAR 's Role and Responsibilities:** Where an IAR is providing advice, the IAR's role is only to offer generalized, non-discretionary advice concerning the merits and risks of investments. The parties intend and agree that (a) IAR is acting as a "fiduciary" within the meaning of Section 3(21) of ERISA only, for "Non-discretionary Investment Advisory Services," and (b) IAR has no responsibilities as a fiduciary for the Plan under ERISA other than in respect of the selected services within the meaning of 3(21) of ERISA. IAR is not an "investment manager" as such term is defined in Section 3(38) of ERISA. IAR will not have the power or authority to manage, acquire, or dispose of any of the Plan's assets, and other fiduciaries of and/or participants in the Plan will make any and all decisions with respect to the selection of Plan investments, after their own independent consideration. IAR does not provide legal, tax, accounting, recordkeeping or actuarial advice. It is the Plan's responsibility to ensure that the Plan's asset allocation choices comply with any legal, actuarial or other requirements that apply to the Plan or that the Plan meets tax qualification requirements.

**Alternative Investment Network Fees.** Pershing has entered into arrangements through which it may receive servicing fees from managed futures funds, hedge funds, real estate investment trusts (REITs), direct participation programs and fund of funds (collectively “alternative investments”) that participate in Pershing's Alternative Investment Network no fee program in lieu of transaction fees and special product fee charges to your firm. These fees are calculated in accordance with an asset based formula that can range from 10 to 50 basis points annually. Pershing also receives set up fees from alternative investment providers or broker dealers in the form of a one-time fee to add an alternative investment to the Alternative Investment Network. The fee is a flat fee ranging from \$100 to \$300 per fund and is remitted to Pershing for its work to set up the alternative investment on Pershing’s systems.
