

Schedule of Ticket Charges for Securities America Brokerage Transactions (for both National Financial and Pershing accounts)

Important Factors to Consider When Purchasing Securities (broker/dealer charges). Transaction charges may apply to securities sales, purchases and exchanges. The rate charged varies for mutual funds, variable products, stocks, bonds and option transactions. Factors that determine transaction charges include size of purchase, type of transaction, mutual fund family, advisor, advisor representative, variable product sponsor and processing method (online/phone/ systematic). Accordingly, the transaction charges incurred will vary. At your Financial Professional's discretion, he/she may apply these transaction charges to the expenses that you pay for your securities transactions. If so, these charges will be deducted from your account and appear on your account statement. For more information on these transaction charges or commissions, please ask your Financial Professional.
